

FELSTED CENSUS 1801-1901

Felstead Map, 1847

Since 1889 there have been many alterations in parish boundaries, often affecting the recorded population figures and making it difficult to produce a simple table.

The table below is of the Felsted population in 1801-1901. This is based on the ancient ecclesiastical parishes, and the figures have been published according to urban districts and civil parishes, which do not always correspond to the ancient ecclesiastical parish's boundaries.

The table below shows the population 1801-1901

Year	1801	1811	1821	1831	1841	1851	1861	1871	1881	1891	1901
Population	486	1503	1724	1788	1798	1715	1804	2012	1956	1859	1945
